I have had a back ailment for most of my adult life. - a slipped disc in my lower back from a sporting accident.

When I came to Dr Tai Wang, I could hardly walk as a result of nerve damage.

After 4 sessions I am pain free & feeling a lot healthier - He recommended I change my diet as well.

I can really recommend him ~~to~~ and his treatment to anyone! He made my life a lot better!

Thank you Dr Tai Wang.
